

Aplikante — Investor Overview

High-level demo flow · ~15 minutes · <https://aplikante.app/investors>

Before You Start

Voice demo (no login)	https://aplikante.app/apply/aplikante-investors
Investor relations	https://aplikante.app/investors
Guided demo access	Request via https://aplikante.app/contact?intent=investor — credentials provided to qualified investors

Demo login credentials and the full presenter script are shared under NDA with approved investors only.

0:00-2:00 Hook — The Problem

"Recruiters spend most of their week on phone screens that could be automated. Volume hiring — BPOs, staffing, retail — breaks at scale. We're fixing that with AI voice screening that runs 24/7."

- Open dashboard as investor — point to pipeline with real demo candidates
- Mention: production SaaS, multi-tenant, live on <https://aplikante.app>

2:00-7:00 Core Product — Voice AI

"This is the product. You'll experience it yourself — an AI that conducts a real conversation, not a chatbot form."

- Campaigns → **Seeking Strategic Investors** → **Try Voice Interview**
- Or share: <https://aplikante.app/apply/aplikante-investors>
- After call: show candidate in pipeline with match score
- **Do not** dive into prompts, models, or architecture — save for NDA conversation

7:00-10:00 Platform Depth

- Pipeline Kanban — toggle **Bias Mitigation (Blind)**
- Open a high-fit candidate — show match %, skills, interactions

- Switch to NovaTech demo (optional) — volume hiring / 500-seat story

10:00-12:00 Llewyn AI Assistant

"Recruiters manage everything in plain English."

- Click floating AI → ask: "Show my campaigns"
- Ask: "How many candidates applied this week?"
- Ask: "Help" — scoped to recruitment only (security demo)

12:00-15:00 Close — Opportunity

"We're raising seed to scale GTM in APAC volume hiring. The platform is live. We'd love a strategic partner who knows HR tech or BPO."

- Share <https://aplikante.app/investors> for high-level overview
- CTA: Request data room / schedule follow-up via contact form
- Investor walkthrough auto-opens on first login — full guide at </recruiter/investor-guide>
